Guest introductions -6:45 pm

Film Screening -7:00 pm

Presentations and Discussion after the film

Admission by donation

“Do The Math” is a 42-minute documentary about the rising global movement to change the terrifying arithmetic of the climate crisis. This important film follows 350.org founder Bill McKibben as he depicts the reality of climate change and launches the “Fossil Fuel Divestment Campaign”. Although set in the U.S., the facts the film outlines apply globally—making it imperative for us all to watch.
